FA0 (Free Agent) is a system which will allow distributors who have not made a "direct sale" over 2 years to reactivate their business under a different group by purchasing a Machine or Ukon Sigma. No "Tokurei" is allowed to reactivate. No name changes are allowed after FA transfer. In case of exercising FA0 status, your Ukon account(s) under your main account will be invalid. **It will NOT affect the up line distributors for their rank up or qualifications for any incentives.**
