

# ENAGIC GLOBAL E-FRIENDS

Vol  
243

Feb  
2021

*6A2-4 Khoa Nguyen & Tina Vo*

*Stay Optimistic and  
Achieve Greatness in 2021*

*It would bring  
enough good  
fortune to  
drown out  
all of the  
difficulties  
he had  
suffered  
thus far.  
Life is all  
about who  
you meet.*

# *Message from Mr. Ohshiro*

## ***Embrace Optimism and Capitalize on Momentum***

The new year is a chance for the world to once again embrace optimism. Signs of economic recovery have become clear. The climb back up and over the mountain is now inevitable, and we are bound to reach even greater heights together in 2021.

With exciting global company promotions like the 6A Support Campaign, you are already focused on helping your team achieve 6A and beyond. And just like the enthusiasm we are feeling at Enagic, confidence is rising across society and in business. Now is the time to capitalize on this momentum and to tap into all this incredible potential.

Prospective customers are becoming ready, willing and able to invest in quality products, and Kangen Water is the wisest investment of all.

The storm is passing and the sun is breaking through the clouds. By sharing the amazing benefits of Kangen Water and Ukon with more people, we have the chance to make 2021 our best year ever and to spread compassion and True Health around the world.

***Hironari Ohshiro***

# Change YOUR life with Enagic in 2021!

*Let's strive together for global social well-being through E8PA.*

**Realize True Health Through Kangen Water® and Kangen UkonΣ®.**

## The Foundations of True Health:

Physical Health

Financial Health

Mental / Metaphysical Health

### Understanding “Kangen”

“Kangen” applies to more than just water. This important part of a bigger Enagic philosophy also describes stripping away things that keep us from achieving our “destined” harmony and balance. Enagic offers five different kinds of Kangen:

- Bodily Constitution = Good Health
- Fair & High Income = Good Earnings
- Quick Return = Rapid Financial Reward
- Appreciation / Compassion = Care for Self and Others
- Societal Support = Care for the Community

### Face-To-Face: Human Based Marketing

The “True Health” lifestyle allows infinite diversity and flexibility. Close communication between people is nurturing and helps us overcome barriers and boundaries. Discover and develop your own Enagic business style. The resulting “Circle of Compassion” will ripple across the globe, now and forever.

# Active Global Distributor Leaders

*\* Continuation from last month and more 6A2-3 leaders will be listed in next month's issue of E-Friends.*

## *Change Your Life Story*

**6A2-4**

# **Khoa Nguyen** **Richmond, Virginia, USA**

Keeping busy in business has never been a problem for 6A2-4 Khoa Nguyen. He previously owned a restaurant and still operates two Grand Nail Spa salons. Still, he couldn't pass up the chance to become an Independent Distributor. "I thought Enagic was a huge opportunity," he says. "I realized that I could help others to change their lives and be much more successful than in all these traditional businesses."

Like many stories we've heard, Khoa started using Kangen Water after getting a sample from a friend. He saw the demo in 2017 and immediately bought a K8.

Khoa learned a lot and found inspiration while attending Enagic conventions. "I saw many older people and many younger people who were very successful," he says. "I saw big rewards that everyone dreams about. I believed I could do it too." Khoa also learned valuable skills from uplines like 6A2-4 Diem La.

*Khoa was born in Vietnam, moved to Houston when he was 20 years old and now lives in Richmond, Virginia. He didn't attend college, but that hasn't held him back. "You don't need to," he says. "I don't even speak English. The only words I know are 'Change your water, change your life,' but through the power of the Enagic systems, I found people who do speak different languages. Enagic gave me freedom."*

*His first sale was to his mother-in-law, who Khoa recognized needed True Health in her life. She quickly committed to Kangen Water and bought a machine just a few weeks later for her mother in Vietnam. "I was so happy to spread the most valuable*

*thing in the world to all three generations of my family," Khoa says. "I never imagined I could have such a positive effect on my loved ones. Only Kangen Water can do this."*

*In under four years, Khoa is on the verge of becoming 6A2-5. He credits Enagic success to a "triangle" business structure that allows for Khoa, his uplines and downlines to provide constant support to each other. This model includes frequent online and offline training, and hosting events to build their team.*

*Khoa is relentless in business, but still spends time with family and makes efforts to cook, garden, travel, and perhaps most importantly, learn.*

# India Distributor Profile

*Jiyana Ajwani*

**6A2-3**

Most knocks on the door result in package or pizza deliveries, but 6A2-3 Jiyana Ajwani had a far more impactful experience in February 2018. "A guy came to my home and said give me 30 minutes of your time and I bet your life will change," Jiyana recalls. "I asked how? He told me, 'I will show you a demo of a water machine that costs 3 lakhs [300,000 rupees].'" Jiyana

refused the mysterious offer after hearing the price, which seemed high at the time. The man, an Enagic Independent Distributor, left a USB flash drive and asked for Jiyana to watch a video of the demo. Months later, at 1 a.m., he finally watched the video featuring 6A6-4 Updesh Malik demonstrating Kangen Water. Convinced, he bought a Kangen Water machine to benefit his family's health.

At work, Jiyana's partners initially mocked him for buying an expensive water machine, but they soon became persuaded of Kangen Water's benefits and bought their own machines. 10 days later, Jiyana received unexpected commissions from Enagic. After learning more about the

company's patented 8-point commission structure and attending a convention in Malaysia, Jiyana and business partner Hitesh Santwani both became Independent Distributors. On January 13, 2019, the duo opened a store named Pinnacle Aqua in Raipur, the capital of Chhattisgarh state in central India.

Pinnacle Aqua has achieved notable success since launching. Jiyana and Hitesh became 6A in June 2019, 6A2 in September 2019,

6A2-2 in February 2020, and 6A2-3 in November 2020. Achieving that much success so fast is not typical, and it's taken some good fortune to get there.

“When we were becoming 6A2-2, we were short of 53 machines on last day of the month,” Jiyana recalls. “That day we did 64 sales and closed our 6A2-2, so anything is possible if you believe you can do it.”

Jiyana's achievements haven't just been financial. Being an Independent Distributor has also improved his public confidence. “Earlier I was a very shy person and I had stage fear. Because of Enagic that changed,” he says. “The best thing is that we make new relationships every day. Enagic gives us health, wealth and happiness.”

Jiyana has found considerable success faster than most Independent Distributors, which he credits to his family's support. He and Hitesh have ambitious goals for the future. “Our target in Enagic is to help 1 lakh [100,000] families by 2022,” he says. “We also focus on women's empowerment, to help women to become financially independent.”

Jiyana leaves Independent Distributors

with 5 things you need to find success with Enagic:

- 1) Focus. Set a target for what you want in your life. Know why, and take actions to achieve it. Nothing is impossible.**
- 2) Accept this as your business, not a hobby.**
- 3) Be consistent and serious. Regular demos of your own and of your team.**
- 4) Help your team to achieve their dreams.**
- 5) Stay in a positive environment. Stay away from negative people.**

# Czech Republic Distributor Profile

## Bui Hong Thuy

### 6A2-3

When friends introduced Bui Hong Thuy to Kangen Water in 2017, she was instantly interested. "I taught and studied science, so I understood how the K8 machine can help people," she says. After attending Kangen Water demos and getting more information, she committed to becoming an Independent Distributor. Over three years later, she's achieved 6A2-3.

"In this field you cannot only make money, but you can also help people." That quote also applies to Bui, who purchased a K8 to invest in a healthier lifestyle for her and her family.

Bui sold her first K8 to Linh Nguyen and her family in neighboring Slovakia. Now two Nguyens are sponsored by Bui and have worked their way up to 6A2-2.

Bui attended Truong Cao Dang Su Pham, a college back home in Vinh Phuc, a province in northwest Vietnam, where she majored in Biology and Chemistry. She taught both subjects in Vietnam. After moving to the Czech Republic with her husband in 2006, she worked as a shopkeeper and for a skincare company. Both jobs had a

lasting impact on Bui's life. "These experiences gave me the confidence to talk in front of an audience without being nervous," she says.

Bui remains vocal about her positive experiences with Enagic, which she hopes will help inspire more people to change their lifestyle and join her as Independent Distributors. "I want people to know about the company and its products and the business opportunity," Bui says.

When she isn't working to achieve even more success with Enagic, Bui maintains an active lifestyle that includes playing sports, taking walks, and cooking. Kangen Water provides the fuel she needs to succeed in any activity.

# USA Distributor Profile

## Sinh Phuoc Tong

6A

Before Enagic, 6A Sinh Phuoc Tong owned a nail salon that performed well financially, but allowed him very little freedom. My previously traditional business did not allow me to have time with my wife and family," he says. Enagic's opportunity in direct selling, complete with their patented 8-point compensation plan and True Health philosophy, helped provide his whole family a better quality of life.

Sinh also wants to create a sustainable model for his team. "I trained my team members to build their own business by using the products, sharing with their friends, and teaching their people to do the same," he says. "I'm building something that lasts for many more generations."

"My dream and goals are financial, time and health freedom," Sinh says. "Every day, I wake up with excitement to learn and apply my knowledge to share and encourage my team players to act the same. As a leader I understand discipline and self-motivation are important. I take a leadership role to encourage my team to move up to the next level."

As an Independent Distributor, Sinh has also gained the freedom to relax. In his spare time, Sinh enjoys listening to music, watching movies, and planting bonsai trees. Sinh's also happy to just "sit on the beach, listening to the wind and waves." After all, the ability to simply rest and enjoy your surroundings is the byproduct of good choices and hard work.

# Idarli Laitio

## Enagic Employee Spotlight

It was either a coincidence or a sign of things to come that longtime Enagic employee Idarli Laitio was born down the street from the Enagic USA headquarters in Torrance, California. She's spent much of her professional career in her hometown. Laitio previously worked as a receptionist for the local Jaguar dealership before joining Enagic in October 2008. She's progressed from being an operator and call center representative to Los Angeles Branch Manager. As she says, "These 12 years have given me many skills and opportunities and have shaped the person that I am today." Learn more about Laitio's career and her hopes for the future.

### *How did you learn about Enagic?*

My friend informed me that a temp agency was looking to fill a position for a Japanese company in the city of Torrance. After working at the car dealership for three years I was interested in expanding my work experience, but had no idea or ever heard about water ionizers or direct selling.

### *What were your initial impressions of Enagic?*

I was filled with many questions about the company but through training and each experience the vision of Enagic became quite clear and simple. Enagic is a family that supports one another to achieve success.

### *What are your favorite aspects of working with Enagic?*

I really enjoy helping people; it gives me such satisfaction when I can help someone in their own quest for growth within Enagic. My mission is to support and empower our independent and passionate distributors.

### *What are the biggest challenges with working for Enagic?*

I definitely wish I spoke Japanese. After 12 years you would think I would be fluent by now, but it's a language that I admire and would have helped me to communicate better with our headquarters in Japan. Google Translate has been my best friend. Although this is Enagic USA, Japan is the Motherland of Enagic and our founder, Mr. Ohshiro, so there is much respect for him and the culture of Enagic.

### ***What is your most memorable Enagic experience?***

My most memorable experience is being a part of the Enagic Global Conventions in years past. The conventions bring excitement and recognition to our distributors. We celebrate our company that we work for and connect with people from around the world. It's unfortunate that our 2020 convention was postponed, but I really look forward to getting our distributors back together soon for a well

### ***What do you like about Kangen Water?***

I love Kangen Water for its taste and benefits. I have loved drinking Kangen Water since 2008. Water is so important for our bodies; during my pregnancy with my first-born child, I would drink lots of Kangen Water for both of us. My son is now two-and-a-half years old and loves his Kangen Water to this day! In our company he is considered a "Kangen Baby."

### ***Do you use other types of water? If so, what are your uses?***

I definitely use the Strong Acidic Water 2.5 pH in my humidifier daily and always carry a spray bottle to clean my hands.

### ***Do you enjoy using other Enagic products? If so, which products?***

I love the Ukon Tea and Ukon Capsules. The Ukon tea has such a great comfort and taste to enjoy before bedtime. The Ukon capsules are amazing too! The benefits of turmeric make it a no-brainer to want to take along with my Kangen Water.

### ***How is Enagic different from other companies?***

Enagic has come a long way since when I first started. We are growing and learning each year. There is so much opportunity Enagic can offer to customers, distributors, and staff. Our products are able to change lives. Our philosophy of True Health - wealth and healthy mind - is what many people strive for in their lives and Enagic can offer it all.

### ***What are your objectives in the future with Enagic?***

I want to continue to be a pillar of support for our distributors to help make a mark for the company to achieve our goal of 25,000 units sold in one month.

# Enagic Encourages Athletic Participation!

Enagic Independent Distributors and customers are familiar with Kangen Water's benefits, and the company's commitment to wellbeing also includes a focus on physical activity. Enagic invests in teams, athletes, events and facilities throughout the year to promote sports and healthy, active lifestyle.

# Enagic Golf Club at Eastlake is “On a Roll” in 2021

Momentum continues to build at Enagic Golf Club at Eastlake, the 18-hole suburban course in Chula Vista, California acquired in 2018 at the direction of Enagic CEO Mr. Hironari Ohshiro.

Following up on the success of the Enagic San Diego County Open held at the course in October, Enagic hosted a pre-qualifying tournament for the Farmers Insurance Open, which happens at nearby Torrey Pines Golf Course.

Enagic Golf Club at Eastlake made an agreement with Southern California PGA (SCPGA) to host three qualifiers for the Farmers Insurance Open, starting with the tournament that just ran January 19-21, according to Enagic Golf Club at Eastlake VP/COO Neil Finch. Each day, 90 golfers competed for coveted spots in the tournament qualifier. In total, 270 golfers played Enagic Golf Course at Eastlake. Finch heard nothing but compliments and was thrilled with how the course played. “The course showed itself well,” he says. “All the work is paying off.”

Increased recognition has let Enagic Golf Club at Eastlake to build their event calendar. The SCPGA asked Finch to host two other events this March: a two-day Senior Event and a 100-player competition for the San Diego Chapter. Finch says, “As soon as you start being successful, the next thing you know, you have another question. ‘Can you guys host this?’” The team’s been working to hear questions like this, but they’re not done making improvements.

“We have another couple tees and some more fairway bunkers and some more improvements we’d like to get started,” Finch says. “It’s been absolutely exhilarating to be out there to make changes and fine-tuning.”

Finch has been so focused on upgrading bunkers, greens and tees with course superintendent Jim Ferrel and their team that he’s barely had time to golf himself. He’s only played the course four times since arriving to end 2018. “I spend more time on a backhoe,” he jokes. Finch is kind of like a chef who barely eats their own food.

“We’re becoming recognized in the community,” Finch says. “Thursday, Friday, Saturday, Sunday, we’re at max capacity, and on Mondays, Tuesdays, and Wednesdays, we’re sneaking up on max capacity.” The improvements that Finch and his team made to the course during 2020 are clearly paying dividends.

“We have a completely different product that we’re presenting to the public today,” Finch says. “Even though Mr. Ohshiro hasn’t been here in many months, he has a lot to be proud of, and for all the distributors that he built the golf course for, it’s a very nice golf course...We’re on a roll.”

# *Congratulations to each of you for your outstanding achievement!*
