Enagic®

RESET, REFOCUS, REGROUP

**Chairman Jayvee Pacifico
Sets the Vision for the Enagic
Distributor Association**

**“Loyalty is a direct
route to success.”**

Enagic Founder and CEO Hironari Ohshiro

The above excerpt is from the book *Quenching the Thirst for Global Success, the Success Story of Hironari Ohshiro*. Toshio M. (2015) It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic. A must-read for distributors, it is available at www.enagic.com/shop Also available in Chinese, Italian, French, Spanish and Japanese! Contact your local branch office for details.

Message from Mr. Ohshiro

Reset and Think Differently to Increase True Health in 2022

Welcome to 2022, a whole new year with new reasons to get excited.

We're not putting the pandemic behind us, but let's reset and think differently. It's a whole new world. Now is the time to take a chance to improve your business and life.

At Enagic, we're constantly thinking of new ways to conduct business that make life more rewarding and less stressful for our Independent Distributors. After all, we cannot succeed without you:

- The Enagic online store in the United States is helping to automate and streamline the ordering process.
- Our efforts to centralize operations are also paving the way for Enagic branch managers to focus on sales and growth instead of processing.
- The new Enagic Distributor Association led by 6A9-6 Chairman Jayvee Pacifico is just getting started!

Jayvee became an Independent Distributor in 2004, less than a year after Enagic opened in the United States, and he has become one of the most respected leaders in the Enagic family. Given my trust in him, I asked Jayvee to become the Enagic Distributor Association's first Chairman. He serves as a liaison between Enagic and global leaders. I'm confident that under his watch, we'll continue to increase sales, improve cohesion and foster more True Health within our ecosystem.

Enagic hopes to show as much support for your efforts as possible, but it's still up to Independent Distributors to find opportunities both within and beyond their networks to generate sales and earn commissions through our patented 8-point compensation plan. Coordinate with your upline, downline, and team members to form a strategy that works best for you. Take advantage of all the pertinent training opportunities online and in-person to maximize your potential. Even in this world, which is constantly in flux, you still have so many resources available to you. Use them.

Have a great start to your year and be sure to drink Kangen Water®.

Hironari Ohshiro
Enagic Founder and CEO

Singapore Distributor Profile

Giselle Chia

6A2

6A2 Giselle Chia is a lifelong Singapore resident who ran a successful advertising company and changed her career trajectory after trying Kangen Water®. 6A4-5 Bernard Chan introduced her to Enagic, but she had negative associations with multi-level marketing companies, so she was just a Kangen Water® user to start, beginning with an SD501 water ionizer in 2011.

“Many MLMs are short-lived and use hard-sell techniques, which can be very distasteful,” Giselle says. Enagic was the antidote for her direct-selling aversion. “Enagic provides a totally different insight and perspective and I really love it,” she says. “We show care and concern about customers’ wellbeing. It’s not about the money; it’s the genius in selling something that works and is beneficial to the entire family. Strong positive feedback from customers also propelled me to take the business seriously.”

Giselle made her first two sales, a K8 and an Anespa DX, to 1A Jessie Lee. “The sale boosted my confidence and propelled me to become a full-time Enagic Independent Distributor.”

Her previous advertising experience provided her with skills to succeed as an Independent Distributor. “I become very independent, bold, and am able to socialize and strike up

“Enagic provides a totally different insight and perspective and I really love it,” she says. “We show care and concern about customers’ wellbeing.”

conversations with strangers,” she says. “All these traits are important.”

In her spare time, Giselle loves to cook for friends and uses Kangen Water® as a key ingredient. She uses 9.5 pH Kangen Water® in her home-made herbal soup, braised chicken with mushrooms & chestnuts, almond peach gum dessert and other dishes.

Giselle is committed to Enagic for the long term. Her passion for Kangen Water® has become so apparent that people nicknamed her the “Kangen lady” and the “special water salesperson.” As she says, “When Kangen Water® has become part of you, you breathe, eat, and sleep with it.” It’s still relatively early in her journey, but Giselle hopes to achieve 6A2-3 and “grow old together with Enagic.”

India Distributor Profile

Sudesh Malik
6A3-4

6A3-4 Sudesh Malik followed the Independent Distributor footsteps from his late brother, the beloved Updesh Malik (now 6A6-5) and has become successful in his own right, though he initially resisted.

Sudesh was doing well as a corporate and documentary filmmaker when Updesh presented a Kangen Water® demo to him in 2015. “My late brother forced me to watch the demo as I was against MLM systems and did not want to be a part of it,” Sudesh says. However, once he bought his first Kangen Water® ionizer to start 2016, he couldn’t argue with the results. “Only after seeing the effectiveness of the water, I decided to do the business part-time, which very soon became my full-time work and passion,” he says. “It was the product that pushed me to get involved in the business and then it was the company’s system and compensation plan that made me a full-time distributor.”

Like many people, Sudesh made his first sales to close friends and a sibling (his sister). “My business flourished when I started venturing out in other groups than my close associates,” Sudesh says.

Sudesh credits motivational speaker Tony Robbins’ Life Mastery University with instilling valuable skills. “That helped me a lot in understanding and developing my team,” he says. Sudesh has also learned other keys to success along his Enagic journey. “Consistency and right habits are a sure winner,” he says. “Keep doing your basics and help your downline. Put lots of efforts on trainings besides usual talks on various topics.” Sudesh has even developed a curriculum to help team members learn and thrive.

- Unstoppable YOU: a full-day training program on the basics of Enagic business.
- Unstoppable Leader: a 4-day residential workshop designed to groove distributors to become leaders.
- Thursday Chat: a weekly meeting on Zoom platform reaching my team's new recruits across the globe to answer their specific queries as well as train them on various aspects of business.
- Business Builder Course: an online training program for all my team's new recruits in English as well as Hindi. Each language has around 60 hours of training videos.

As early adopters for Enagic India, Sudesh and his family faced various challenges, beginning with market credibility. "When we started, we had no users or testimonials from our country," he says. "Then we had little understanding of product, systems and how to do the business

the right way, so we had to do trial and errors ourselves." The family overcame all of those issues, only to face pandemic lockdowns. Through all of these circumstances, Sudesh and his family have continued to succeed.

Sudesh now has clearer perspective, saying, "The outlook towards things changed many times, starting with enjoying the luxury the money brought in which later transformed to satisfaction and sense of fulfillment seeing many of my downlines living better lifestyles."

6A3-4 is a big accomplishment, but Sudesh isn't satisfied. Updesh wanted to be -8, and Sudesh will certainly support his late brother's family, who currently operates his ID under UP Enterprises, to achieve that goal. In the future, Sudesh also wants to honor his brother's vision by achieving -7.

Enagic Branch News

Late Independent Distributor Updesh Malik Ranks Up to 6A6-5 With Family's Help

Last year, when top Enagic India leader Updesh Malik passed away suddenly, his family carried on his legacy as an Independent Distributor through UP Enterprises. Daughters Anupa and Neha, brother 6A2-4 Sudesh and 6A2-2 Priyanka Kadam continue to use his Enagic ID and even helped Updesh rank up to 6A6-5 last fall, a testament to his vision for the family's Enagic journey, which began in November 2015.

“The initial days were difficult for Updesh as the closest office was in Malaysia,” Anupa recalls. However, despite logistical limitations, “He understood the power of the product and nothing stopped him from walking on the path he set for himself.”

“We still have a long way to go,” Anupa says. “We intend to create continuous awareness about the benefits of Kangen Water® and strive to create top ranking distributors by sheer motivation and

team work.” Thanks to efforts from Independent Distributors like Updesh, Enagic India has made a big impression. “Kangen Water® is already on the way to becoming a household name in India,” Anupa says.

The family’s work as Independent Distributors has also made a large personal impact. “It has given us the opportunity to grow our standard of living by leaps and bounds,” Anupa says. “It’s also a chance to be part of a an ever growing, ever evolving legacy.”

“We truly believe that this is just the beginning of our journey together,” Anupa says. She and her family hope to see UP Enterprises reach -8 status by 2023.

Change Your Life Story

6A2-3 Heng Anderson

Heng Anderson grew up in Neak Loeung, not far from where she currently lives in Phnom Penh, Cambodia's capital and largest city. She learned about Enagic from 6A Kea Sokvina, bought a SD501 water ionizer in November 2018, and started as an Independent Distributor in 2019. She's now Cambodia's first Independent Distributor to reach 6A2-3 and has energized her country.

After three months as a user, Heng's upline invited her and David to attend an E8PA Convention in Bangkok, where the couple got to meet and learn from encouraging leaders like 6A12-6 Romi Verdera and 6A13-7 Cynthia Briganti. They left inspired and began inviting people in their network to Kangen Water® demos, building a team and traveling throughout Cambodia to generate interest. Since Heng speaks Khmer and could translate English marketing materials to the predominant language, she was able to connect with more people and thrive.

Heng also had other skills that helped her cause. She worked for banks and NGOs in finance for 25 years before switching to the insurance field. "Both previous jobs involved networking, and both sell an invisible product, so now showing the value of Kangen Water® is quite simple by comparison," Heng says.

Heng has excelled in every endeavor, crediting how “she’s competitive by nature, driven, focused and passionate to help others.” The couple even purchased a vegan/vegetarian restaurant called The Corn that performed well until COVID-19 arrived. Since they’re excelling as Independent Distributors, they currently have no plans to reopen the restaurant, though it was a positive experience.

Heng’s first two customers were both family members who have become successful Independent Distributors: husband 6A2 David John Miller and mother 6A2-2 Ath Pha. “They could see the potential business opportunity and have supported me the whole time,” she says.

Heng and David opened their Kangen Cambodia Showroom in December 2020. “We want to support our team that grows bigger and bigger and have our own conference room for our leader meetings,” she says. They’ve also incorporated Zoom into their program, inviting top leaders from around the world to share stories about their journey, translating to Khmer right away for local participants.

Being Independent Distributors has become a lifestyle for Heng and David. She says,

“When the mission becomes everything, everything becomes the mission.”

They’re not just focused on work. The couple also enjoys adventure travel and dancing, and David likes golfing. “We combine activities when restrictions allow and do business wherever we find ourselves as part of the fun,” Heng says.

Heng plans to stay an Independent Distributor well into the future. She’s looking to “rank up every year and never retire.” Heng adds, “The mission is everything. We intend to build globally, but help Cambodians live an improved lifestyle.”

“A huge thanks goes out to all our Enagic Kangen family for supporting, encouraging, and sharing knowledge of what’s working and mistakes to avoid,” Heng says. “Your contributions are part of our success story.” She singles out 6A9-6 Jayvee Pacifico’s “touching story of persistence,” 6A16-4 Daniel Dimacale readily sharing Kangen Water®, Romi Verdera’s “heart,” Cynthia Briganti’s “faith” and Mr. Ohshiro’s “vision for a better world, the mission that drives so many.” She adds, “It starts with just one life changed, and the ripple effect spreads as passion in those who see the value of True Health.

Be Inspired!”

Enagic Employee Spotlight:

Sarah Bix

It would have been tough for Enagic Los Angeles Branch Manager Sarah Bix to dream up a shorter commute. Of course, Enagic USA didn't set up their headquarters in her hometown of Torrance, California, until 2003, and she didn't join the company until 2015, but the decision to join the company is certainly working out, both for her odometer and her career. Bix shared insights into her Enagic journey.

What did you do for a living prior to Enagic?

I worked at an Italian restaurant in Torrance, as a cashier and waitress.

How did you learn about Enagic?

My best friend was working here at the time, and told me I should interview for the company.

What are you focusing on right now with the company?

Promoting sales within California: encouraging distributors to participate in exciting new sales campaigns, compelling distributors to use the new online shop which boasts faster order processing, and hosting trainings that ensure distributors are aware of important updates within Enagic.

What is your work history with Enagic?

I began working in the front sales area: greeting customers with a warm welcome and selling supplies. Shortly after, I was invited to MC/host an Enagic staff Christmas party, and then Enagic distributor recognition events. Within time, I was trained to process Kangen Water® machine/Ukon orders and began interacting with distributors more closely. Next, I was promoted to team leader, working to support the sales processing staff. Afterwards, I was promoted to L.A. Sales Branch Supervisor, which included working to support distributors and Enagic processing staff.

What were your initial impressions of Enagic?

I thought to myself, "What could be so important about water?" I had imagined a small, local, family

business, (I was wrong about small and local). I had never heard of Enagic or ionizer machines, but I was eager to learn more!

What are your favorite aspects of working with Enagic?

First, regardless of personal circumstances, Enagic is a company that holds a unique opportunity for anyone, anywhere in the world! Second, rather than working for a corporate company, Enagic feels very much like a family. Last but not least, the compassion that Mr. Ohshiro has for both employees and distributors alike, demonstrates the exceptional quality of Enagic.

What are the biggest challenges of working for Enagic?

I wish I could speak Japanese. Mr. Ohshiro gives speeches in Japanese and his words are translated into English, but the power behind the message is something I wish I could understand and experience in its natural, raw form.

What is your most memorable Enagic experience?

The first time I traveled to Japan in March 2018 to celebrate Mr. Ohshiro's birthday, it was raining and cold, but I did not let the weather hold me back. I wanted to experience everything that Enagic could offer in Japan. I was full of energy, and excited to better understand Mr. Ohshiro's vision of Enagic. Upon arriving, I played golf on the custom golf course overlooking the beach, admired endless trees that Mr. Ohshiro personally planted for each 6A2-3 distributor, and refreshed with sauna and onsen (traditional Japanese hot springs) at the E8PA facilities. Later that evening about 600-700 people, including distributors from all over the world and Enagic staff, gathered under the big white tent in Okinawa and the celebration

began. There was dinner, entertainment, and birthday song and dance for Mr. Ohshiro and of course recognition of distributor achievements. The whole day was magical. I will never forget it.

Do you have any unforgettable memories of Enagic Independent Distributors?

Some unforgettable memories I have are the celebration in July 2021 of the first 6A- 7 in Enagic history, Cynthia Briganti, and the recent election of Jayvee Pacifico as Chairman of the Enagic Distributor Association. I have worked with Cynthia and Jayvee

since I began in 2015 and they are both unforgettable people who have shown great compassion for their downlines and Enagic staff alike.

Which co-worker is your Enagic hero?

Although she no longer works here, my friend Andrea, who encouraged me to interview for this job, is my hero. I am so thankful she introduced me to Enagic. She gave me an opportunity that changed my life forever!

What do you respect most about her?

She works very hard, never gives up even if challenges arise, and takes time to make the best decision possible.

What do you like about Kangen Water®?

I love Kangen Water® for the fresh taste and feeling of constant hydration! I love the fact that the filter inside Kangen Water® ionizer machines will remove over 95% of chlorine from tap water. I feel my best when I drink Kangen Water®!

Do you use other types of water? If so, what are your uses?

I love the acidic pH 6 Beauty Water as a facial moisturizer spray. 2.7 pH Strong Acidic Water is wonderful for cleaning my hands throughout the day and cleaning surfaces at home. The 11.0 pH Strong Kangen Water is one way that I enjoy cleaning my fruits and vegetables and removing stains on fabric.

Do you enjoy using other Enagic products? If so, which products?

The Anespa DX and Ukon turmeric capsules are both products I use in my daily life. The Ukon turmeric capsule supplements are similar to a multi-vitamin and can be taken every day, with a glass of Kangen Water®! The hot-spring effect and mineralized water flow of the Anespa DX reminds me of being in the steamy onsen in Japan years ago. It is the most relaxing part of my day!

How is Enagic different from other companies?

Enagic International is the only water filtration and alkaline ionizer distribution company in the world with its own OEM manufacturing facility in Japan and ISO certified quality control processes. Enagic products are designed, developed, and distributed directly from the manufacturer in Japan. Enagic's strong approach to environment sustainability and high standards for future business planning ensure that practices are in place to reduce our environmental footprint now and in future generations!

What are your objectives in the future with Enagic?

I look forward to assisting distributors with achieving their business goals, increasing the USA market penetration rate in 2022, and reaching 25,000 units sold globally each month!

Jayvee Pacifico Shares His Vision for Enagic Distributor Association

Enagic just announced 6A9-6 Jayvee Pacifico as Chairman for the new Enagic Distributor Association in December, but he's already making an impact in his efforts to support top leaders across the globe, improve cohesion, and increase business. Jayvee made his public debut at Enagic's holiday party on December 14 in Los Angeles, where he shared his vision for the new organization.

He described his role as "liaison for the distributors to the management" and advised the importance of adhering to policies and procedures that Enagic established. That includes making no health claims about Kangen Water® or guarantees about the financial benefits from being Independent Distributors.

On December 28, Jayvee hosted his first Zoom event to discuss the Enagic Distributor

Association, drawing 400 Independent Distributors from across the world. 30-40 distributors typically join Zoom events, which shows the heightened excitement level surrounding the Enagic Distributor Association. Jayvee reiterated some key points from his holiday party speech and discussed several new issues, including the fact that “Enagic’s compliance department hired more employees to monitor erring distributors’ websites and social media.” He also told participants to “expect to expand their knowledge through stories training from different high leaders around the world.” Communication will continue to flow.

Jayvee has one last message for distributors to carry into 2022 and beyond:

“Through cohesion, we can reach our goals, win together and succeed together.”

The Importance of Using Genuine Filters from Enagic

Enagic manufactures a range of filters that keep your Kangen Water® ionizers and ANESPA DX shower filter performing as well as possible.

- High Grade-New Filter
- High Grade Filter
- F8 Water Filter
- Anespa External Cartridge
- Anespa Internal Cartridge
- Replacements for Pre-Filter
- INLINE Pre-Filtration System
- UltraE Prefilter Set
- UltraE Replacement Filter
- DPS Replacement Filter

Danny Johnson, Enagic USA's Filter Division Manager, explained how these filters work, saying, "Our filters will remove the chlorine, trichloromethanes, rust, turbidity and odors from the tap water and then still let the good minerals pass through. Our filters have three layers: calcium sulfite, granular antibacterial carbon, and mechanical filter."

Johnson stresses how important it is to buy filters directly from Enagic or risk damaging Kangen Water® ionizers or their Anespa DX. “If they take third-party filters and put them in their machine, we won’t honor the warranty anymore because we can’t guarantee those filters,” Johnson says. “Unfortunately, too many people have turned the machine back to us and say, ‘This filter doesn’t work for us.’ Well, that’s because it’s not ours. It will probably cost them more to get their machine refurbished than it would be to just buy our filters because we know the quality of our goods.”

Everybody has different sales strategies, and Johnson has his own ideas on how to best sell filters. He’s available to discuss with interested Independent Distributors, saying, “If they want to learn more about the business end of filters, have them call me.”

*Congratulations to each of you
for your outstanding achievement!
December 2021 New 6A and Above Title Achievers*

CEO Birthday Global 8-Point Sales Contest

Celebrating Mr. Ohshiro's 81st Birthday!

81 bonuses awarded in 3 categories (Machine, Ukon, Machine & Ukon).
January 1 - March 31, 2022

Rules*:

- 1) E8PA card count**: Bronze - 3 sales, Silver - 6 sales, Gold - 12 sales, Platinum - 18 sales, Black - 24 sales.
- 2) Ukon Sigma counted as 1 sale.
- 3) Ukon DD counted as 1/3 sale.
- 4) Ukon DD renewal counted as 1/3 sale.
- 5) Self-purchases not counted.
- 6) Tokurei sales not counted.
- 7) Payments (down payments) should be completed in order to be counted as a sale (E-payments will count).
- 8) When multiple distributors end up in the same rank with same number of sales, final rank will be determined by the total amount of \$ sold.
- 9) For distributors with multiple accounts, only the highest-producing account will be eligible to receive the bonus.

* Rules and guidelines may be modified by HQ accordingly.

**E8PA card count amounts are ONLY applicable to this contest and do NOT count toward corresponding sales performance.

	Ukon	Machine	Ukon & Machine		\$8,000	\$8,000	\$8,000
