

Experience the Powerful Antioxidant Benefits of Ukon Turmeric from Okinawa

Message from Mr. Ohshiro

Embrace Competition to Grow Your Business Globally

As summer heats up in many parts of the world, interest in Kangen Water® and hydration only increases. We know that Independent Distributors will continue to step up to not only meet demand, but to grow interest in Enagic products. As we've repeatedly seen, you have the ability to convince people to believe in the benefits of our water ionizers and Ukon products made from turmeric grown near my hometown that have vital anti-inflammatory and antioxidant properties.

We have broken down so many barriers together. We continue to add motivated Independent Distributors to our teams, which allows us to exceed and update expectations. My long-term goal is now for Enagic to sell 30,000 Kangen Water® machines and Ukon subscriptions in a single month. Steadily growing global Enagic business and supporting Independent Distributors remain constant goals to fuel our greater mission of achieving True Health. By continuing to share Kangen Water®, show compassion and tell other people about Enagic's patented 8-point compensation plan, it's just a matter of time before we accomplish our revised goal.

As demand for Kangen Water® increases and as Ukon becomes available in more markets, global growth and competition will only accelerate. In almost every case, Independent Distributors aren't competing for the same customers. After all, Earth houses nearly 8 billion people, so opportunities to share Kangen Water® and Ukon with new potential customers is nearly limitless. However, it's important to note what distributors are doing in other markets.

For example, India has become a dominant global market for Enagic products. What are Independent Distributors doing in India to achieve such remarkable results? We tell many stories in E-Friends about success from Indian distributors. See what they recommend in these pages. It's also easier than ever to connect with Independent Distributors in other markets to compare strategies. In many cases, distributors are happy to share and compare best practices.

Take stock in what you're doing to be the best Independent Distributors possible. The U.S. was the first dominant global market for Enagic. Are U.S. leaders still staying motivated and doing business globally at a top level like Indian distributors? Embrace the challenge and competition. Only by competing against the best can you be the best. Still, know that you're not alone and other Independent Distributors on your teams and in the global Enagic community are available to support you. Just don't get complacent. Continue to make outreach and strive for greatness.

Many readers are currently experiencing summer heatwaves. To keep cool and stay hydrated, keep your bottle of Kangen Water® with you at all times. Excuse me for now while I take a sip.

Hironari Ohshiro Enagic Founder and CEO

Ukon Grown Near Mr. Ohshiro's Okinawa Home Provides Vivid Benefits

Enagic Founder and CEO Hironari Ohshiro's birthplace in the Okinawa countryside continues to contribute greatly to Enagic and the world. This rural area is home to hard working farmers who were struggling to earn a living wage selling Ukon, a plant in the ginger family that's called turmeric in English. Their prospects improved once Mr. Ohshiro got involved.

Mr. Ohshiro wanted to help his community and decided to start buying turmeric from local farmers for a good price and creating impactful products. He knows the health benefits of turmeric's golden colored, curcumin rich roots that are globally known for their powerful anti-inflammatory and antioxidant properties. Enagic currently has contracts with 273 local farmers in Okinawa's forest covered Yanbaru region that adhere to strict standards when growing pesticide and preservative free Spring Ukon and Autumn Ukon in nutrient rich soil.

Ukon gets cleansed and processed with Strong Kangen Water® and Strong Acidic Water at our Okinawa Kangen Foods factory. Each soft capsule is individually packed using the newest PTP packaging technology to block moisture and prevent oxidation. Kangen Ukon incorporates a blend of turmeric, essential oils, minerals and vitamins. The factory also produces Ukon tea made with Autumn Ukon and the Spring Ukon oil used in the Ukon & Honey soap that Distributors also sell worldwide.

Mr. Ohshiro would like to spread the word more and more about Kangen Ukon to continue helping even more people with the Kangen Ukon business and with Ukon's health benefits.

8-POINT CONTEST

An exciting new global campaign that focuses on repeating Ukon DD and Ukon 3DD/ Σ ! If you have previously purchased DD or 3DD/ Σ , you are eligible* to participate in the contest.

Win up to \$300 per day for repeat Ukon DD and Ukon 3DD/∑ orders!

RULES - 1A-5A DISTRIBUTORS

Ukon DD renewal = 2 points*

Change Your Life Story

6A2-4 Anh Mai Phương Le

6A2-4 Anh Mai Phương Le majored in Economics at a college in Vietnam. She eventually relocated to Virginia and has worked in "traditional business" for over 20 years, including her current stint as an airline ticket agent. "When I became an Independent Distributor, I applied all my existing experience into that business," she says. Anh's efforts have been fruitful.

Three leaders introduced Anh to Enagic: 6A2-3 Jonathan Ly Trinh, 6A2-4 Dai Nguyen, and 6A2-3 Yen Nguyen. Anh says, "I thought, if I am an Independent Distributor, my life can change." That's been the case. In 2016, Anh first sold Ukon to 1A Bach Cao Nguyen, who recently became an Independent Distributor. Anh has thrived since then, including in Europe, where she "introduced the machine and opportunity to the Vietnamese community."

"I am the first person to bring the K8 machine to Europe," she says. "I introduced the machine and opportunity to the Vietnamese community." When I came back to the U.S., I trained them with all of my knowledge and strategies," Anh says. "Now a lot of Vietnamese people in Europe are successful under my team."

To continue honing her team's performance, and her own, Anh communicates, trains, and motivates her downline by Zoom. Anh also plays tennis when she's not working, which helps her to personally recharge both physically and mentally. These efforts are all part of a bigger plan.

"My goals for the future with Enagic are helping everyone to know about Kangen Water® and recognizing the opportunity with Enagic in order to help them change their life," she says. Anh will only be satisfied once her team is "helping everyone" possible.

India Distributor
Profile

Mohammad Nasir 6A2-2

6A2-2 Mohammad Nasir was born and brought up in Delhi, and after working in Uttar Pradesh for almost 15 years, he's back in India's National Capital Territory living happily with his family.

Mohammad earned a Bachelor of Technology degree from Kurukshetra University. From 2003 - 2006, he worked with Reliance Infocomm before becoming an executive at Bharti Airtel, another big telecom giant. Mohammad says, "Life was going great, but I always wanted to do something on my own, so I resigned from Airtel in 2018 and started a few businesses like Home Automation, Mobile Accessories, and Car GPS until March 2020 when the lockdown happened."

"It was 6A4-2 Rohit Aryan to whom I will be thankful throughout my life for introducing this miraculous product to me in June 2019," he says. 6A3-2 Devendra Kumar Ruhela presented Mohammad with a Kangen Water® product demo. "Being a technical person, I could understand the science behind the product, but I was not sure how much this water would practically impact my life," he says. However, after 15 days, he became convinced by the results, Enagic's patented 8-point compensation plan, and his "super duper upline," the late 6A6-5 Updesh Malik, "who gave many tips to reach these coveted ranks." He became an Independent Distributor.

"Having no big past experience in direct sales was a hindrance initially, but with continuous focus on my daily learnings about the industry through my seniors and my prior Sales and Marketing experience helped," Mohammad says. "Always working with them on the ground

led to all the achievements which I have today." Mohammad points to many benefits from his past:

- Making connections with people
- Making them work
- Conflict management
- Driving a common agenda
- Motivating the team
- Driving new initiatives
- · Keeping the team together

Mohammad sold his first Kangen Water® ionizer to 6A2 Priyasri Patra and her husband, 6A Bibhudatta Behera, who he considered "hot prospects" based on leads from his upline.

"Life is amazing with Kangen Water® and I say, 'It's Kangen Life," he says. "I always believe in daily small actions, innovations, and new ways of team engagement. Being with my team always gets results."

Mohammad outlines just some initiatives and steps that he and his team take to perform so well.

- Welcome new Independent Distributors with a cake cutting ceremony at their home leads to great bonding with the family.
- For the first few days, talking and educating only on machine usage and Kangen Water[®] consumption leads to increased faith in the product.
- · Basic Training Program, educating about the industry and how to start the business
- All 4A and above leaders have responsibilities for training their small groups.
- Celebrate each achievement starting with 2A by first posting a congratulations poster in WhatsApp groups and social media then a cake cutting or other engagement activity to motivate the achiever.
- Monthly separate 6A group meetings
- One Residential Training Program quarterly
- Two Leadership Training Programs quarterly

- International trip contests: "We managed to fly to Thailand with 130+ achievers in September 2022 and to Dubai with 120+ achievers in January 2023. There were many people who got their passports printed for the first time in life and in just a span of 5 months who could fly twice internationally as achievers which created a great sense of achievement. I always believe, 'Anything which is rewarded gets repeated.' so people are more serious about the business now."
- Focus on increasing the Kangen Experience Centre footprints. We currently have 8 Experience Centers.
- Monthly Online Rewards and Recognition Program: "I share all achievements and initiatives taken last month which helped the team to work smoothly. All distributors even with 1 sale are recognized and rewarded which is helping to increase the participation of the distributors with minimum 1 sale. I always believe that it's better to have 50 people doing 1 sale then 1 person doing 50 sales."
- Try to meet personally with inactive distributors to help them to restart.
- Daily morning one motivational whatsapp message to all
- · One on one calls to all my immediate leaders

Mohammad's short-term goal is to reach 6A2-3 and he hopes to achieve a 6A2-8 rank by December 2028. "All other in-between ranks are part of the biggest journey," he says.

He's walking a long, winding road, but along the way, Mohammad does take time to recharge and reflect. "I love to listen to Hindi songs," he says. "I have also started loving to work more on my physical health and my mental health, so I love going to the gym in the morning. While doing workouts, I love to listen to audiobooks of different famous writers, educate myself on different topics and love to visit different places with my loving best half, Amreen Khan, and my loving son, Mohammad Arsh."

Enagic has started producing music that fits your life.

We are planning to deliver music for 24 hours of life. from the time you wake up in the morning to the time you relax when you fall asleep.

Also, we think it would be effective to listen to it as casual background music during business negotiations.

This BGM was carefully produced while imagining various scenes of the dealers.

We hope this music will enrich your daily life.

Dear dealers...

Enagic music is music that enriches our daily lives.

Subhash Jaiswar 6A2-2

After becoming an Independent Distributor, it wasn't long until 6A2-2 Subhash Jaiswar began experiencing success. "When I started my Enagic journey, my downline started seeing results," he says. "I was earning money and at the same time we were making people's lifestyles better."

Subhash first learned about Enagic and Kangen Water® through 6A6-5 Updesh Malik and sold his first Kangen Water® ionizer to a dear friend, Kamlesh Kanojia, who saw "many beneficial results" and started referring more people to him. "After 3 months when he checked his bank statement he was surprised because there were many transactions from Enagic," Subhash says. "He suddenly called me and inquired about each and every aspect of the Independent Distribution program and from the very next day he started his Enagic journey and he is still working." Since then, Kamlesh Kanojia has risen to a 6A2 rank.

Subhash grew up in Mumbai. He earned a diploma in web design and previously worked in that field, as a memory coach, and as a sales executive for ITC Hotels. "Before Kangen, I worked as a hardcore salesman," he says. "I got great exposure to public skills, negotiation, understanding customer needs, and customer feedback," skills that have all aided his current efforts.

His experiences even allowed him to succeed in business during the pandemic, when his ability to lead online meetings and schedule seminars came in handy. "It made more people accessible from other countries which helped me to spread my team all over the world," he says.

Subhash has two main goals: reach a 6A2-3 by the end of 2023 and visit Enagic's Kangen Water® factory in Osaka, Japan. He also hopes success helps him upgrade his home and car.

To make these goals a reality, he's implemented six initiatives with his team.

- "Working closely with my downline to make them achieve positions in order to reach -3"
- "Doing online demos with an increased percentage"
- "Working on closings with each and every leader"
- "Organizing online team meetings and Q&A sessions every week"
- "Making my team leaders aware about the products"
- "Discussing the problems faced by every leader and providing solutions to them with our previous experience"

To say that Subhash has free time would be a stretch. "Whenever I'm free I plan for my downline," he says. "I also try to get educated more about Kangen Water® machines." However, he has been known to solve his Rubik's Cube when he gets a spare moment. Evidently, Subhash is adept at overcoming challenges in business and in life.

India Distributor Profile

Deepak Kumar Singh 6A3-2

When a friend named Jawed introduced 6A3-2 Deepak Kumar Singh to Kangen Water®, Enagic's track record, sterling reputation, and patented 8-point compensation plan convinced him to become an Independent Distributor. 6A3-4 Sudesh Malik helped place him in 6A2-3 Satpal Sagar's downline. Deepak made an initial sale to Baliram Sharma, who continues to use Kangen Water®, and has motivated many buyers to join him as Independent Distributors.

Deepak is originally from Patna, Bihar's state capital in northeast India, and currently lives in Ranchi, a medium sized city that's about an eight hours drive south in Jharkhand. Deepak has worked in sales and marketing for nearly three decades and explored different network marketing opportunities over the years before finding Enagic, which has proven fulfilling.

Deepak dreams big. "I have to achieve 6A5-8 within the next 5 years," he says. To reach this ambitious goal, he plans to continue participating in webinars, seminars and residential training. Deepak is so immersed in Independent Distribution that finds watching Youtube videos featuring Kangen Water® and network marketing relaxing and fun activities. He also enjoys reading books in downtime, but not much distracts Deepak from his drive to succeed.

6A Naresh Pokhariyal has been a good friend to 6A2 Bhagwati Prasad Pant. After all, Naresh introduced him to Enagic. Bhagwati started drinking Kangen Water®, enjoyed positive results, and was inspired to share Kangen Water® with more people as an Independent Distributor.

"I was working as a medical professional and understanding Kangen Water® deeply and thoroughly was not difficult," Bhagwati says. "Neither was adopting it." He made his first sale to 6A2 Prem Pal Singh and since then hasn't relented in his outreach and efforts.

Throughout his life, Bhagwati has managed to stay determined. He's adopted practices that have helped his team thrive as Independent Distributors. "With regular meetings through online platforms we connect with all the active distributors and try to solve any or all queries they face," he says. Bhagwati also strives to "meet new people and educate them about Kangen Water® and its benefits in our lives."

Bhagwati's father served in the Indian Army, so they lived in many parts of India: Delhi, Agra, Bangalore and even Uttarakhand, a Himalayan state in northern India. He's currently based in Haldwani, an Uttarakhand city that houses just over 350,000 people. Bhagwati earned a degree from a government university in Uttar Pradesh before finding the medical field, and later, Enagic.

Becoming 6A2 is commendable, though Bhagwati has bigger goals for the future. "My current goal is to become 6A2-3 by the end of 2023," he says. "For this aim to come true, I work with my entire team to regularly take meetings, attend seminars, and motivate each other with various methods." He also finds inspiration from other people who have achieved success, listening to motivational speakers both in-person and online in his spare time.

To maintain some balance in his life, Bhagwati also plays sports, reads books and also enjoys gardening, which is another reminder that you reap what you sow. Based on his recent success as an Independent Distributor, he clearly has ample sunlight and Kangen Water[®] in his life.
