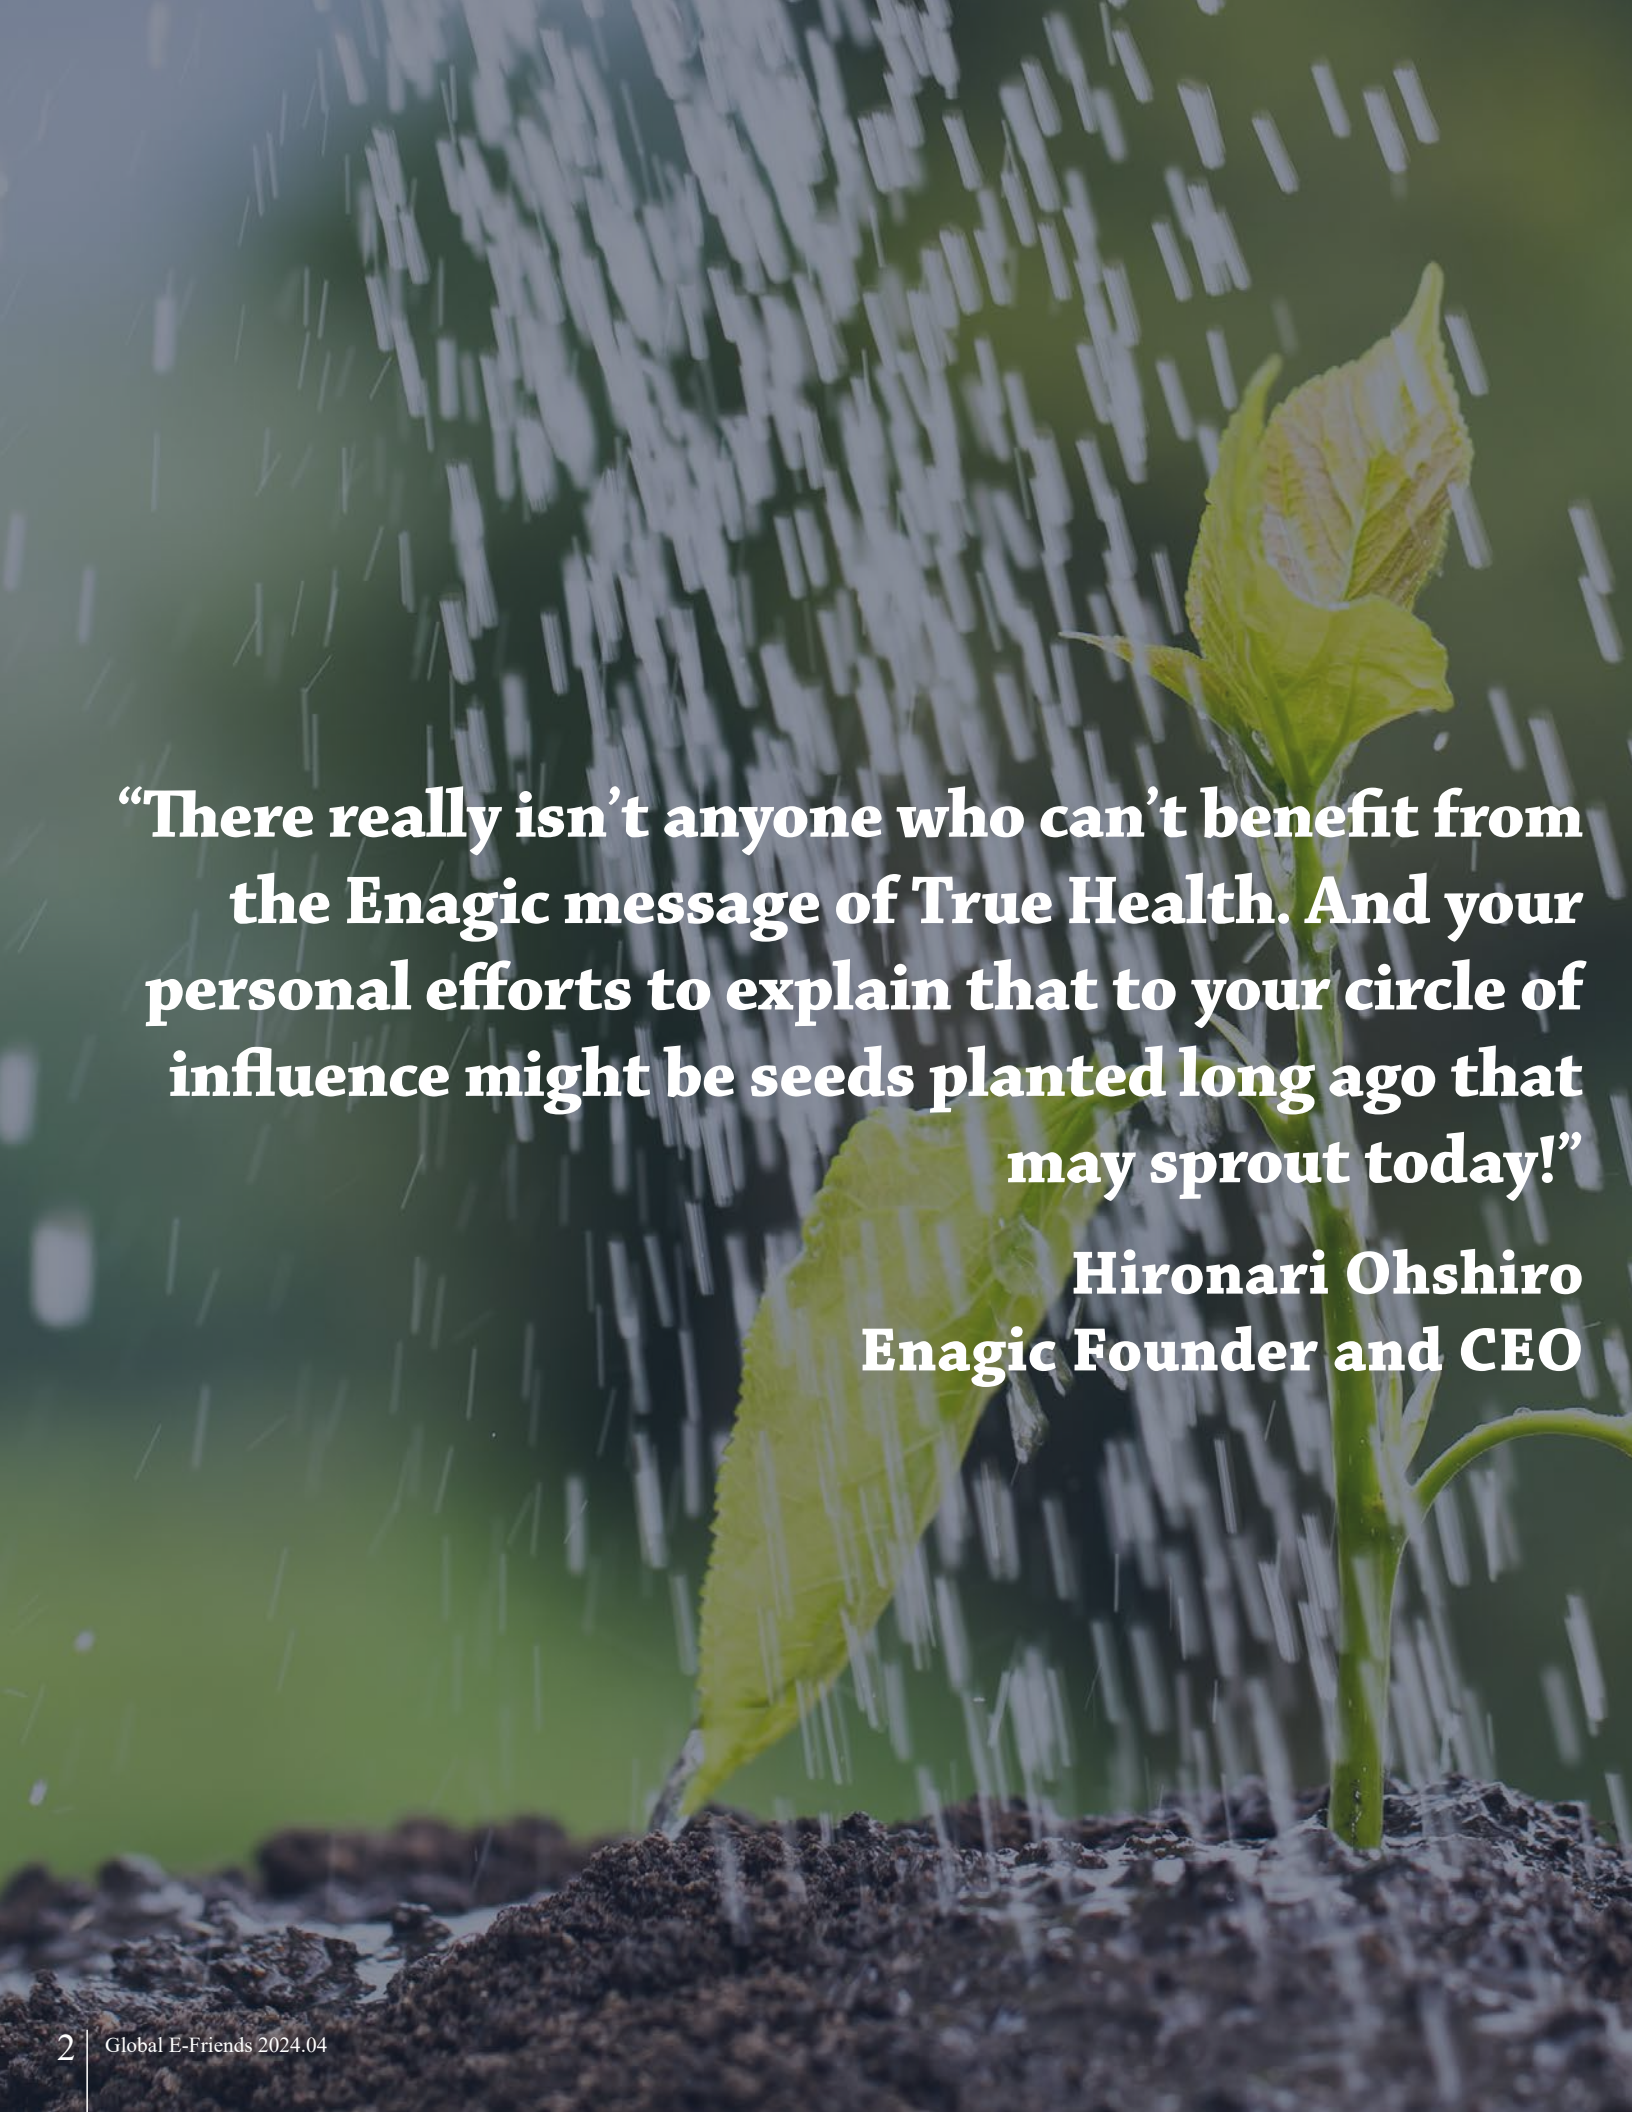
Enagic®

6A4-3 Lacey Bahns from the United States is Expanding Her Business by Helping People



“There really isn’t anyone who can’t benefit from the Enagic message of True Health. And your personal efforts to explain that to your circle of influence might be seeds planted long ago that may sprout today!”

Hironari Ohshiro
Enagic Founder and CEO

Message from Mr. Ohshiro

Human Based Marketing

Dear Enagic Global Distributors,

The company I founded 50 years ago in Okinawa now provides Kangen Water® ionizers, Ukon™ turmeric supplements, and Anespa home spa systems to the world. We couldn't have made a global impact this big without consistently strong support from Independent Distributors. People made this possible. Artificial Intelligence will probably be a bigger part of our lives in the future. I can see AI becoming a powerful tool we can use in our sales efforts, but in our roots, Enagic relies on human based marketing.

Enagic continues to provide opportunities for people to become independent business owners who are also part of a global community of entrepreneurs. Despite what computer algorithms might lead us to believe, humans are still the pinnacle of innovation. Computers would not exist without us. Neither would Enagic's patented 8-point compensation. This powerful system rewards teamwork and embraces compassion, which are both hallmarks of humanity.

Our mission remains the same: provide people the opportunity to change their lives, but also inspire the people around them. Being an Independent Distributor creates a power surge in your life that helps other people to build momentum. Now is the time to make a positive impact on people in your orbit. All it takes is for one of these people to pass along their passion and plan.

My goal is to create 10,000 millionaires. This might be tough to visualize, since so many people in the world live in poverty. However, by providing people with an opportunity, it's possible for them to overcome financial challenges with hard work, discipline, and the right strategy. Considering so many people are seeking independent wealth and True Health, meeting you could very well be the encounter they are waiting for that can point them in the right direction.

My dream is to free people from whatever binds them, from whatever prevents their ultimate ascension into greatness. I look forward to seeing how you help and hearing your stories. In the meantime, let's both enjoy a refreshing glass of Kangen Water®.

Hironari Ohshiro
Enagic Founder and CEO

Change Your Life Story

6A4-3

Lacey Bahns

6A4-3 Lacey Bahns grew up in Montauk, the easternmost point on New York's Long Island. She recently moved to Austin, Texas with her husband, 6A2-3 Steven Bahns, who was the first person to buy a Kangen Water® ionizer from her when he was still her boyfriend. They managed to make this move thanks to the freedom they enjoy as Independent Distributors.

She learned about the opportunity through her best friend, 6A2-3 Amelia Whelan. "She showed me Kangen Water® and the business plan and I fell in love with both," Lacey says. "I wound up selling my previous business franchise to go ALL IN with Enagic." This decision has had a profound effect on Lacey's life. Beyond the financial rewards, she's been able to "help hundreds of people get the best water, rescue two dogs, and travel the world." As she says, "This business has changed everything for me."

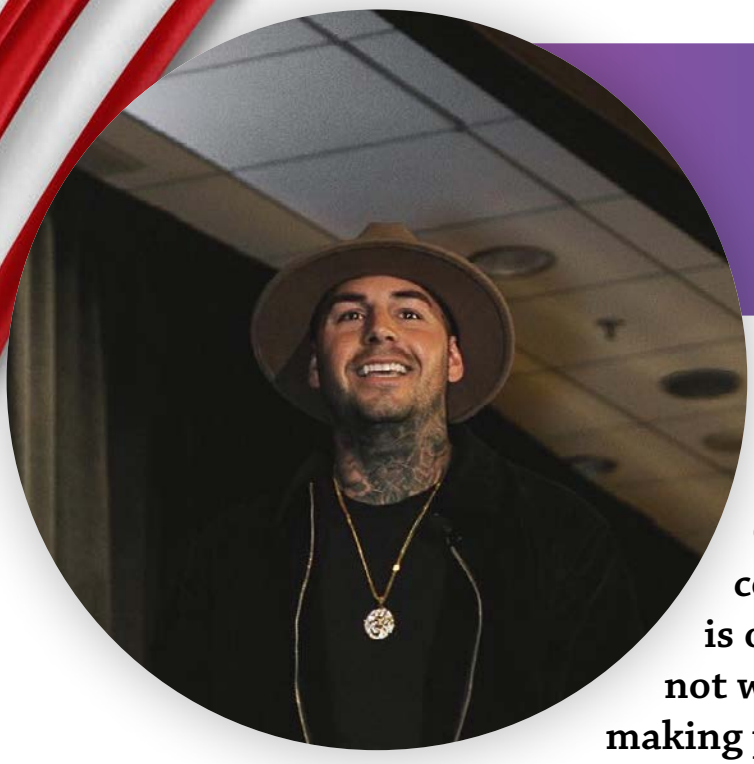
Lacey previously worked as a health coach, office worker, retail worker, yoga studio owner, and with a low-ticket MLM before selling her franchise. "I did it all," she says. These collective experiences equipped Lacey with the ability to excel in her role as an Independent Distributor.

To keep excelling, Lacey communicates and educates her downline on a regular basis. “We talk in Telegram daily, we have support chats, we have live Zoom training two times per week and we meet up and do live events and water demos,” she explains. “I just had a 350 person live event.”

These efforts are all building toward a bright future. “My goal is to hit 6A2-8 and have a family business with my kids,” Lacey says. “My husband also has goals to hit 6A2-8. We want to help 100,000 families get the water into their homes and start this abundant business.”

In the meantime, Independent Distribution success has already paid dividends for Lacey, Steven and their family with improved quality of life. “I love to travel with my family,” Lacey says. “We love to relax on beaches, and we love to explore other cultures together. Enagic has made this possible for us. We are grateful.”

United States Distributor Profile



Torrie Lancaster

6A2

6A2 Torrie Lancaster is a Southern California native who grew up in Bakersfield and currently lives in San Clemente. This Orange County beach community is famous for surfing, which is one of his favorite pastimes when not working, along with photography and making podcasts.

Torrie worked in the restaurant industry when he learned about Enagic and Kangen Water® through 6A4 Tam Salinas. “I saw the power of changing the world one person at a time,” he says. “I knew it was my duty as a human to spread the gift of this opportunity. It then changed my finances and my entire life and it’s the single biggest impact I’ve ever been involved in.”

Together, their team has already made a major impact. Torrie says, “We have built a huge global community together and are founders of “the awakkening,” which is what he named the movement, a strong branch on 6A5-3 Colten Echave’s Race To Freedom tree, which also includes Torrie’s mentor and Colten’s wife, 6A7-2 Priscilla Echave. Torrie explains, “We believe everybody has an awakkening when they drink this water. It’s all the people who have purchased [Kangen Water® ionizers].”

Torrie has also grown personally in significant ways since becoming an Independent Distributor. Improved communication skills have led to “leveling up through explaining how, as a company, Enagic operates through integrity.” He’s also become more confident as an entrepreneur. Torrie says, “I learned how to become better at time management and understand the power of owning and operating a successful business.”

Torrie continues to take steps forward through daily communication and training sessions. These measures are of his efforts “to continue to impact every city / state and target communities of humans seeking time freedom and True Health.”

Torrie has developed a big vision for the future. He says, “I want to hit 6A5-2 next and continue to invest back into small organizations and show that anything is possible being a small-time kid from a broken family.”

India Distributor Profile

Shaik Khasim Saheb
6A

Motivational speaker, mentor, and business guru, 6A Shafi, first introduced 6A Shaik Khasim Saheb to Kangen Water®. Shaik was impressed and wanted friends and relatives to enjoy the same results. Shafi connected Shaik with the Shastry Brothers Team, who taught him Enagic's patented 8-point compensation plan and helped guide him to a 6A rank.

Shaik was born in a village called Komatlagudem in central India's Telangana state. He earned his Master's degree in Economics and has been a successful businessman ever since. For the past 23 years, he's built a career as a goldsmith. Shaik says, "People call me Khasim Gold." He's shared Kangen Water® with existing happy customers from his gold business, a method that helped to grow his downline as an Independent Distributor.

It's no surprise that Shaik's past experiences have served him well as an Independent Distributor. "My education helped me to understand the business trends and also tune me and my team as per the industry changes," Shaik says. They're now well positioned to grow. Shaik says, "My team is motivated and they are dedicated to developing their business seriously."

Shaik made his first sale to Akbar, who remains a dedicated Kangen Water® drinker. Another early ionizer buyer, Hussain, has proven to be a difference maker for his team. Shaik says that Hussain "is very keen about developing the business and he generated a team of 40 sales in a very short period."

Shaik has big plans for the future. "My goal is to develop 8 members of my team as 6A2-3," he says. "To achieve this I am closely working with all my team members. We regularly conduct leader meetings and public product demonstrations. We conduct regular training sessions and educate the team about the trends of the business and how to achieve our collective goal."

Shaik is particularly grateful for his connection to Team SBT. "I feel blessed to get associated with the Shastry Brothers Team," he says. "My team and I follow the system developed by Team SBT by attending all the Success Meets, workshops, training sessions, and get-togethers online and offline. Everyone is getting educated and motivated to have a successful journey in Enagic."

Canada Distributor Profile

Tanvir Alam
6A2-2

6A2-2 Tanvir Alam was born and raised in Saskatoon, Canada, and currently lives in Toronto. 6A Trisha Mendoza introduced him to Enagic's patented 8-point compensation plan, which is what convinced Tanvir to become an Independent Distributor, and he hasn't looked back.

In college, Tanvir majored in Hotel Management before pursuing a different career path. To begin his Enagic journey, Tanvir sold a K8 ionizer, Ukon and Anespa to 6A2-2 Sukh Dhanjal, completing a sale called the Trifecta. Tanvir has steadily built the business since then.

Tanvir hopes to reach a 6A2-4 rank this year and has taken measures to inspire his team. He says, “We have meetings three times a month and always motivate them on a daily basis.”

In his spare time, Tanvir considers himself an Artificial Intelligence (AI) enthusiast, but as we’ve seen with his Independent Distribution, he can thrive in a reality that isn’t just augmented.

Enagic Foundation is the Latest Manifestation of Mr. Ohshiro's Generosity

Compassion has been a key part of Enagic's mission since the company began in 1974. To help reinforce this core belief to benefit as many people as possible, on our 50th anniversary, Enagic Founder and CEO Hironari Ohshiro established the Enagic Foundation, a 501c3 non-profit organization dedicated to supporting and improving communities. Proceeds benefit community programs, disaster relief, and famine relief around the world.

Mr. Ohshiro says, “It has long been my dream and hope that our businesses engage with their community for the betterment of all. Entrepreneurs must have two legs to stand on: one for successful results and the other for social concerns, especially in surrounding communities. These two legs must walk in concerted fashion, to contribute to improving society where we conduct business. The potential for the Foundation is enormous, but I can’t make it successful without your help. That is why I encourage you to join me in supporting the Enagic Foundation and its mission to improve communities and to assist with famine relief and disaster relief. Thank you for your support!”

The Enagic Foundation Board of Directors consists of:

- President Hironari Ohshiro
- Director Yaeko Ohshiro
- Director Hiroki Ohshiro
- Director Toshio Maehara
- Director Kaori Tagawa
- Director Jayvee Pacifico

Keishi Hirano is the Enagic Foundation Executive Director.
