## Celebrating 51 Years of Enagic with Mr. and Mrs. Ohshiro

**“Be that source of inspiration to your team. Have a short memory and focus on the future. Wipe the slate clean and begin anew every month, every quarter, every six months, every year. Be a wellspring of enthusiasm that your customers and team can see. Be that force, every day, that turns a challenge into an opportunity. Believe in yourself. Power through the challenges. Breeze through the successes. Smile a little more each day and good things will come back to you and your business.”**

**Hironari Ohshiro  
Enagic Founder and CEO**

# Message from Mr. Ohshiro

## Stay Focused For Summer and Move Your Business Forward

It can be easy to lose focus on a sunny summer day, but don't get distracted. June is an important month for Enagic. We celebrate the company's 51st anniversary on June 21. We've got the Enagic Global Convention to look forward to in San Diego. June is also the last month of the second quarter and vital to your business. Finish strong and close out June with momentum. Work with your team and take the necessary steps to achieve your monthly and quarterly goals.

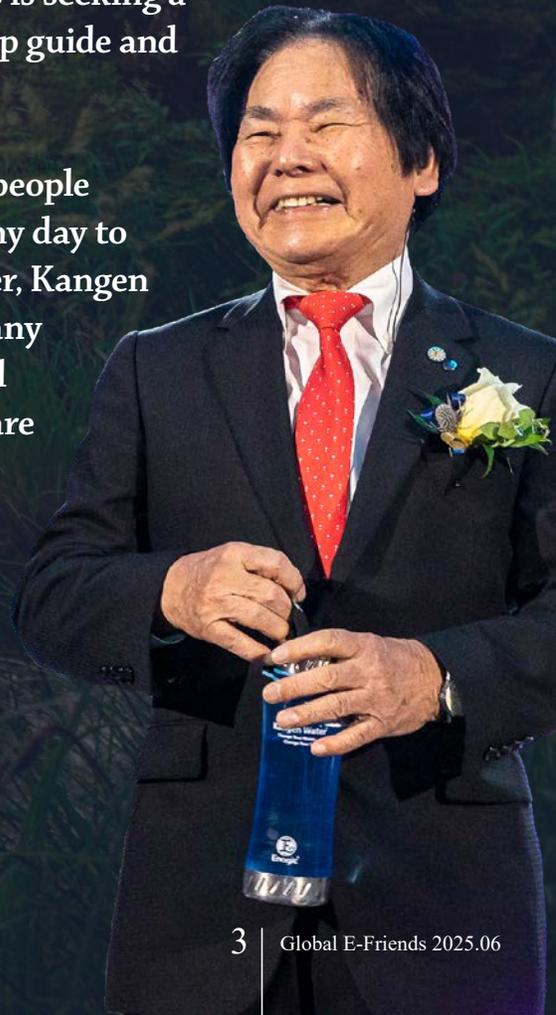

Use the MVP global contest to help make it happen. Our year-long challenge is a great opportunity to strive for excellence and potentially become Enagic's Most Valuable Producer in 2025. We'll continue to tabulate your group and 8-point sales daily, weekly, and monthly across six categories. The 8-point sales contest is open to all distributors and the group sales contest is open to distributors ranked 6A and above. At the end of the year, we will reward the highest performing 8-point sales distributor and group sales distributor as our Enagic Most Valuable Producers. If you need more motivation to drive your business forward, this is it.

Enagic's 51st year is not just another milestone in our mission to share Kangen Water® with the world. A promising new generation of hard-working entrepreneurs is seeking a path to financial growth and a better future. It's our mission to help guide and hydrate them.

June is the first month of summer in the northern hemisphere so people need to focus on staying hydrated. There is nothing like a hot, sunny day to make people crave cool, refreshing Kangen Water®. Unlike tap water, Kangen Water® has no unpleasant odor, tastes lighter, and, according to many consumers, a sweet flavor. Your friends, family, pets and plants will also appreciate the relief that Kangen Water® can help provide. Share whenever possible.

Thank you Enagic family for being part of this impactful journey. Cheers (with Kangen Water®) to the next 51 years of transforming lives. Change your water, change your life!

# Ukon Has Been Popular in Cosmetics for Centuries

**Professor Hosain Mohamed Amzad from the Faculty of Agriculture at the University of the Ryukyus has extensive Ukon knowledge and continues his turmeric related series.**

Ukon (turmeric), blessed with rich natural ingredients, has traditionally been popular in cosmetics.

In South Asia, turmeric paste is a popular hair treatment and may help to improve skin texture.

In Tamil Nadu, Indian women commonly use Ukon in daily routines by applying it to their skin.

Ukon has become a common ingredient in skincare products, and it may brighten skin, and improve overall complexion.

In Hindu tradition, Ukon is used for facial and hair care. The active compounds in Ukon, known as curcuminoids, are possible antioxidants that may improve skin

appearance. In addition, prolonged Ukon gel use may help protect the body from oxidative stress.

Due to these potentially positive effects, Ukon is used in many products: serums, masks, eye creams, shampoos, conditioners, and more. Furthermore, the plant's essential oils are used in perfumes, cosmetics, and soaps.

Ukon Ukon products from Okinawa have antioxidant benefits for skin (soap), support well being (supplements), and can also be a refreshing beverage (tea).

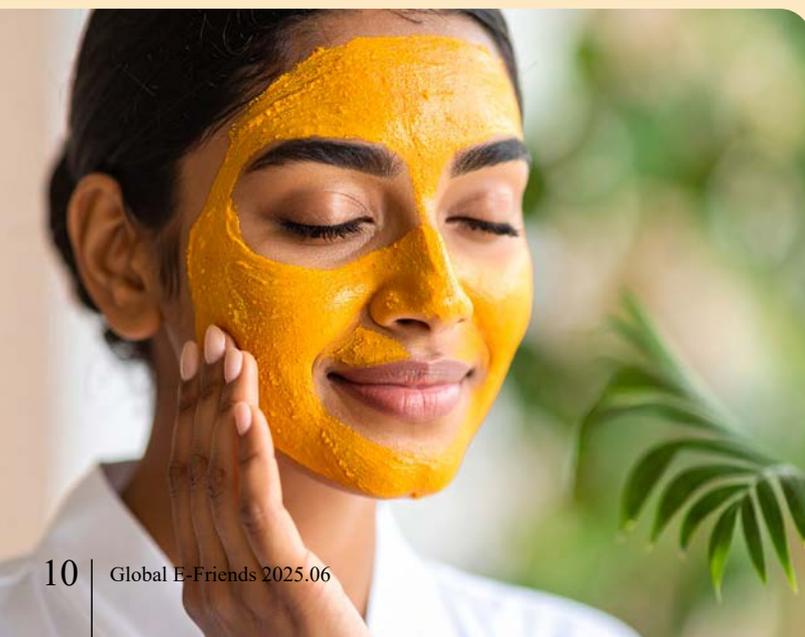

Ukon is a powerful and versatile natural ingredient and has become one of the most popular choices in today's cosmetics market and in many other applications.

## Ukon Factory News

Ukon supplements may be effective not only inside of the body, but also from the outside. For example, 6A2-4 Alfred Chan, an Independent Distributor in Malaysia, made an Ukon face mask.

1. Squeeze out the contents of one Ukon supplement into the clay mask cream.
2. Mix it with the clay mask cream and apply (pack) it on the surface of your face.

Simple, isn't it? See the result in these pictures.

## Prized Kangen Beef is Now Available in the U.S.

Until now, Kangen Beef was only available in Japan. For the first time, this exceptional beef is now ready to purchase in the United States thanks to a collaboration with Masami Cattle Ranch.

Masami Ishida founded Masami Cattle Ranch in Corning, California, in 1988. They carefully pasture-raise American Wagyu, a prized cross-breed of Japanese Wagyu and American Angus.

Prime is the highest grade of beef in the U.S. according to the USDA. Masami Cattle Ranch uses its own Premium, Supreme, and Platinum classifications that they apply to Kangen Beef.

Masami Cattle Ranch's sustainable, environmentally friendly process results in well-marbled beef with velvety texture and rich taste. Three factors help separate Kangen Beef from the pack:

- No antibiotics
- No added hormones
- No animal byproducts

Calves start feeding on mother's milk before transitioning at just the right age to a precise Japanese feeding program. Their diet consists of balanced grains and Kangen Water® to ensure the best tasting beef. Cattle drink about 27 gallons (approximately 102 liters) of Kangen Water® every day. In Okinawa, Kangen Beef also feeds on Ukon (turmeric).

To limit stress, Masami Cattle Ranch cares for the cows from birth to field, and ultimately to table. The only time the cows leave the ranch is for processing and packaging, which takes place at the Masami Foods facility in Klamath Hills, Oregon, where they cut and box the meat.
