

Environment

Without protecting the environment, a healthy, comfortable life for people cannot be achieved. It is thus crucial to be aware of the environment and to contribute to its preservation. For this reason, the Enagic Group has adopted a management philosophy, "True Health to the World", under which we provide products that contribute to "people's health" and "Improvement of global environment". As a member of civil society, we continuously work on "compliance" and "improvement in quality", considering the needs of the environment and safety for the next generation.

Guidelines for Environment and Safety Action, which apply to all of our departments, are as follows:

1. We work to develop, produce and provide products that exert a favorable influence upon people's health and reduce environmental load.

2. We work to secure materials with a low environmental load.

3. We work to reduce, reuse and recycle waste.

4. We work to conserve natural resources and achieve energy-saving efficiency in order to prevent global warming.

5. All of us -- each employee and the management -- observe the international laws, regulations and standards with regard to the environment and safety.

6. By giving thorough trainings to our employees, we raise their awareness of environmental and safety issues, whereby environmental and work-related accidents can be prevented.

7. We seek continuous improvement, setting environmental goals and objectives, upon which regular reports are delivered.

8. We earnestly request that all our employees and business partners understand and support the above guidelines, which we hereupon make available to the public.

Enagic®

Philosophy Of Enagic®

Realize Balanced Health with Enagic®

Being healthy means so much more than "just getting by" from one day to the next. A healthy life is a balanced life, and it encompasses these three basic principles: realizing a healthy body, healthy mind, and healthy finances.

Healthy Body

Kangen Water® is delicious, filtered, alkaline water with powerful antioxidants that can help your body maintain a balanced pH level. You can live in this modern world without giving in to the popular acidic diet and lifestyle! Kangen Water® will help your body stay healthy and hydrated all year long.

Healthy Mind

When everything is connected, your mind can be greatly affected by the state of your body and the stability of your finances. Discover the peacefulness and mental clarity that comes with Kangen Water® by Enagic®.

Healthy Finances

If you want to get out of debt, establish a comfortable living, or add to your "nest egg," you can exceed your financial dreams and expectations as an Enagic® distributor today! Your independent Enagic® business will have unparalleled opportunity to grow and expand, and you can establish financial health just by helping other people improve their health with Kangen Water®.

"Kangen" is an ancient Japanese word meaning "Return to Origin." The Enagic® Group's goal is for you to enjoy the peace and serenity that comes with returning your body, mind, finances, and lifestyle to a more natural state.

Here are the 5 "Kangens" to help you maintain a healthy and balanced life:

Physical Kangen

Return your body to a natural, ideal state of health and balance. While our modern diet and lifestyle often leads to an unnatural, acidic body, Kangen Water® can help your body readjust to a healthy and slightly alkaline state. Armed with powerful antioxidants, Kangen Water® can help you rediscover the strong, healthy body that Nature intended.

Financial Kangen

Return to financial health, and give yourself peace of mind with your own Enagic® business. With a generous compensation plan, high-income returns, and limitless opportunities to earn, you can discover what it means to have a stable income, save for the future, and be debt-free. This is how you were meant to live!

Business Kangen

Return to security and stability with your Enagic® business. With quick returns of payments that are always paid out daily, you can count on Enagic® to help you build a strong, steady foundation that will keep you motivated.

Personal Relationships Kangen

Return to compassion, appreciation, and even person-to-person sales. Share Kangen Water® with your inner circle of friends, family, and close community, and invest compassionate time and energy into making meaningful connections. As you help the people close to you improve their health, you will also be establishing enriching relationships.

Community Kangen

Return to being a purposeful participant in your community. You can give back to your community and become a valuable member of society by sharing Kangen Water® with others, encouraging others to live a Kangen lifestyle, and giving back to the community. Living a balanced life means reaching out to others, not living on an island.
