Enagic® europe

It's Spring Cleaning Time!

Like a filter, the cleaning cartridge is not meant to be used indefinitely.
The fleece inside shows more signs of use with every cleaning procedure.
So from time to time you should replace your cartridge!

Good care is essential to ensuring the best performance and longevity of your machine. Protect your investment by cleaning your machine regularly and properly every couple of weeks!

Get **1 FREE Cleaning Cartridge** with every order of:

High Grade Filter • Citric Acid • E-Cleaner Set
