

1 Week 1 Cell FAQ

1. The goal of this 1 Week 1 Cell promotion is to speed up the process such that new distributors will recruit their first two recruits within one week.
2. Existing distributors can take advantage of this promotion by purchasing another Kangen Water unit or Kangen Ukon DD and registering as a 1A under their own, existing line.
3. Two, left and right side recruits are required at each level of the 8-week timing.
4. Those qualifying distributors will be paid the incentive at the same time as their normal commissions.
5. Tokurei (Good Samaritan) and Returns/Cancellations will be deducted and do not qualify toward the incentive.
6. E-payment clients qualify toward the incentive.
7. The two columns entitled Kangen Water Sales Less Than 50% and Sales More Than 50% involve the Kangen Water – Ukon DD sales ration.
(ex. Within six sales, 4 sales consist of Kangen Water machine sales and two Ukon DD sales. As the machine sales amount to 66%, the incentive will be paid from the “Sales More Than 50%” column.
8. As the incentive started on September 6th, 2013, for those distributors who registered between September 1st, 2013 and September 5th, 2013, they will have one week to recruit their first two recruits, ending on September 13th, 2013.
9. Any multiple sales under your own, new account will not count toward qualification.
10. Tokurei Distributors will require 3 Direct Sales within 1 week of purchase to qualify for this incentive program.
